

NEVADA CHAPTER NATIONAL HEMOPHILIA FOUNDATION

Laid Off? Losing your Insurance benefits? Take these steps now:

1. **You can purchase insurance on Nevada Health link now – April 15th.** Nevada health Link has a special enrollment period to purchase a qualified health plan now through April 15th 2020. Depending on your income, you could be eligible for savings and subsidies.
<https://www.nevadahealthlink.com/reporting-life-and-income-changes/>

If you purchase a new insurance plan on the individual market, stay away from skimpy options (e.g., short-term health plans, Farm Bureau, or health sharing ministry plans) that do not meet ACA consumer protection standards and will not provide adequate coverage for your bleeding disorder.

2. **You might qualify for Medicaid.** Review Medicaid qualifications and apply through nevadahealthlink.com. <https://www.nevadahealthlink.com/start-here/about-the-aca/medicaid/>

If you need help, contact the State of Nevada Office for Consumer Health Assistance Las Vegas: 702-486-3587

3. **What about my medications?** You need to have an adequate supply of medication for your medical condition in case you require quarantine at home. While we do not anticipate any manufacturer inventory issues, we can appreciate the difficulty that may be encountered if delivery avenues are impacted. If you need to discuss this with the HTCNV care team, please call or speak with your specialty pharmacy.

Tip: You may be able to request early refill on your prescriptions. Contact your pharmacy to see what options you have.
